The plan documents themselves must be read for those details. The intent of this document is to provide you with general information about your employer's benefit plans. To the extent that any of the information contained in this document is inconsistent with the plan documents, the provisions set forth in the plan documents will govern in all cases. If you wish to review the plan documents or you have questions regarding specific issues or plan provisions, you should contact your Human Resources/ Benefits Department.

Qualifying Events

Changing your benefits during the year

With the Cafeteria Plan, including employee contributions on a pretax basis and the FSA, it is important that you make your elections during your enrollment period carefully because you can only make changes during the year if you have a qualified life event according to IRS regulations listed below.

Changes to your benefits can be made if preceded by a documented qualified life event and they are made within 30 days of the event. Your change must be consistent with your life event/status change. Listed below are some events that qualify for a change in coverage. For a complete list, please reference your Cafeteria Plan document.

- Marriage
- Civil Union
- Divorce or legal separation
- Birth or placement for adoption of a child
- Ineligibility of a dependent
- Loss of other coverage
- Change in your employment status or that of your spouse
- A court order
- Entitlement to Medicare or Medicaid

If you experience one of these events and want to change your benefits, you must make the change within 30 days after the event occurs. Choosing the plan that's right for you

When deciding what medical insurance plan is right for you and your family there are a number of factors you should take into consideration. Most people will choose a plan based on paycheck deduction amount, deductible, coinsurance and provider network.

The right plan for you:

- Has a per paycheck deduction that meets your budget
- Has an out-of-pocket cost that you can afford when medical care and prescriptions are needed (e.g., deductible, coinsurance, copays, etc.)
- Has your doctors and hospitals in the network
- Provides the benefits you need, i.e., infertility, chiropractic, acupuncture, etc.

Maximize Your Benefits

The following are helpful hints designed to help you get the most out of your health plans.

PPO and HDHP Plan Tips!

- Before going to a doctor or hospital visit the BCBS website at www.bcbsil.com or call Blue Cross to ensure the provider or facility is part of the network.
- Present your insurance ID card to your healthcare provider at your appointment to ensure they send your claims to Blue Cross for processing.
- Blue Cross participating providers will forward claims directly to Blue Cross for processing. They will typically not request any deductible or coinsurance payments from you prior to submitting the claim to Blue Cross so the appropriate discount can be applied. An office copay may be required at time of service.

HMO Plan Tips!

- Make sure you have chosen a Medical Group for each person on your policy and the Medical Group appears on your ID Card.
- You can change Medical Groups at any time and it will be effective the first of the following month. To change your Medical Group call **800.892.2803**.
- Get three months of maintenance medications at the retail pharmacy for two copays. You can save 4 copays annually!
- In situations when you need immediate medical services but don't want to pay the high emergency room copay call your provider. Most Medical Groups have after hour clinics near by and it will only cost you an office visit copay.

Coordination of Benefits

This Coordination of Benefits (COB) provision applies when a person has healthcare coverage under more than one **Plan**.

The order of benefit determination rules govern the order in which each **plan** will pay a claim for benefits. The **plan** that pays first is called the **Primary plan**. The **Primary plan** must pay benefits in accordance with its policy terms without regard to the possibility that another **plan** may cover some expenses. The **plan** that pays after the **Primary plan** is the **Secondary plan**.

If the plan is secondary, the total payment from all plans cannot be more than what it would normally pay in benefits if it was the primary plan. The Secondary plan may reduce the benefits it pays so that payments from all Plans do not exceed 100% of the total Allowable expense. In addition, if the plan is Secondary, it will pay for expenses only covered by our plan. If the other, Primary, plan covers a service that we do not cover, we will not coordinate benefits on that particular expense.

If the employee is married to a spouse that has group medical insurance elsewhere and the couple has children, the parent whose birthday month and day falls before the others will provide the Primary plan for the children and the parent whose birthday month and day falls after will provide the Secondary plan. The District's plan is the Primary plan for all active employees.

Medicare/Retirement

Medicare and Group Health Plan Coverage

When you reach age 65 and you are retired, you have a number of important decisions to make. These may include whether to enroll in Medicare Part B, join a Medicare Prescription Drug Plan, buy a Medigap policy, and/or keep employer or retiree coverage. Understanding your choices may help you avoid paying more than you need to for Medicare Part B and other insurance, and get the coverage that's best for you. You can visit www.medicare.gov and select "Compare Medicare Prescription Drug Plans" and "Compare Health Plans and Medigap Policies in Your Area." You can also call your State Health Insurance Assistance Program. To get their telephone number, call **1.800.MEDICARE (800.633.4227)**. TTY users should call **877.486.2048**.

Medicare Part B benefits are optional and are available to all beneficiaries when they become entitled to Medicare Part A. Medicare Part B may be purchased by most persons age 65 and over. Although participation in Medicare Part B is optional, the District's health plans will pay as if Medicare Part B has been elected when Medicare is primary. See chart below to determine when Medicare is primary. **Failure to purchase Medicare Part B when Medicare is primary will drastically affect an individual's ability to recover any costs incurred for physician services and other Medicare Part B covered items.**

Medicare Part D (prescriptions)

Those eligible for Medicare are provided a letter of creditable coverage by the District. The letter states that the prescription drug program currently provided by the District's Healthcare Plan meets or exceeds Medicare Part D. Medicare participants are advised that they may select the District's prescription drug plan instead of Medicare Part D. The purpose of the letter is to allow Medicare eligible persons to join Medicare Part D at a later date, if they choose, without paying a late entrant "penalty." This letter will be provided annually each fall.

Because Your Health Counts

It's Important to Know Where to Go When You Need Care

Sometimes it's easy to know when you should go to an emergency room (ER), at other times, it's less clear. You have choices for receiving in-network care that will work with your schedule and also give you access to the kind of care you need. Know when to use each for non-emergency treatment.

Virtual Visits

There's never a convenient time to get sick. But now you have access to a board-certified doctor around the clock for non-emergency health issues. Connect by mobile app, online video or telephone. Register at MDLIVE.com/bcbsil or by calling **888-676-4204**.

Your Doctor's Office

Your own doctor's office may be the best place to go for non-emergency care, such as health exams, routine shots, colds, flu and minor injuries. Your doctor knows your health history, the medicine you take, your lifestyle and can decide if you need tests or specialist care. Your doctor can also help you with care for a chronic health issue, such as asthma or diabetes.

Retail Health Clinic

When you can't get to your regular doctor, walk-in clinics – available in many retail stores – can be a lower-cost choice for treatment. Many stores have a physician assistant or nurse practitioner who can help treat ear infections, rashes, minor cuts and scrapes, allergies and colds.

Urgent/Immediate Care Clinic

These facilities can treat you for more serious health issues, such as when you need an X-ray or stitches. You will probably have a lower out-of-pocket cost than at a hospital ER, and you may have a shorter wait.

Hospital Emergency Room

Any life-threatening or disabling health problem is a true emergency. You should go to the nearest hospital ER or call **911**. When you use the ER for true emergencies, you help keep your out-of-pocket costs lower.

For PPO and HDHP Members

Knowing where to go for care can make a big difference in cost and time. Here's how your options compare[†]:

	Average Costs	Average Wait Times	Examples of Health Issues
Virtual Visits Convenient and lower cost	\$	10 minutes or less	<ul style="list-style-type: none"> Allergies Cold and flu Nausea Sinus infections Asthma Pinkeye
Your Doctor's Office Your doctor knows your medical history best	\$	24 minutes*	<ul style="list-style-type: none"> Fever, colds and flu Sore throat Minor burns Stomach ache Ear or sinus pain Physicals Shots Minor allergic reactions
Retail Health Clinic Convenient, low-cost care in stores and pharmacies	\$	15 minutes	<ul style="list-style-type: none"> Infections Cold and flu Minor injuries or pain Shots Flu shots Sore and strep throat Skin problems Allergies
Urgent Care Clinic Immediate care for issues that are not life-threatening	\$\$\$\$	11-20 minutes**	<ul style="list-style-type: none"> Migraines or headaches Cuts that need stitches Abdominal pain Sprains or strains Urinary tract infection Animal bites Back pain
Hospital Emergency Room For serious or life-threatening conditions	\$\$\$\$\$\$	4 hours, 7 minutes***	<ul style="list-style-type: none"> Chest pain, stroke Seizures Head or neck injuries Sudden or severe pain Fainting, dizziness, weakness Uncontrolled bleeding Problem breathing Broken bones

Urgent Care or Freestanding Emergency Room

Urgent care centers and freestanding ERs can be hard to tell apart. Freestanding ERs often look a lot like urgent care centers and treat most major injuries, except for trauma, but costs are higher. Unlike urgent care centers, freestanding ERs are often out of network and can charge patients up to 10 times more for the same services.¹ Here are some ways to know if you are at a freestanding ER.

Freestanding ERs:

- Look like urgent care centers, but have EMERGENCY in the facility name.
- Are separate from a hospital but are equipped and work the same as an ER.
- Are staffed by board-certified ER physicians and are subject to the same ER copay.

Find urgent care centers² near you by texting³ **URGENTIL** to **33633**.

HMO Members check with your medical group to see where their after hours clinic is located. Keep in mind, if you go to a Walgreen's Healthcare Clinic there is a discount for you!

Need help finding a network provider?

Use Provider Finder[®] at bcbasil.com or call the Customer Service number on the back of your member ID card. If you need emergency care, call **911** or seek help from any doctor or hospital right away.

Pre-authorization – For PPO and HDHP Members

BlueCross BlueShield of Illinois

Understand Your Health Plan Before You Get Care to Help Avoid Higher Costs.

Preauthorization (also known as 'prior authorization') means that approval is needed from your health plan before you have certain health tests or services. To help make sure your care is appropriate and avoid unexpected costs, it's important that approval is received **before** you get these services.

Usually, your network provider will take care of preauthorization before the service is performed. But it is always a good idea to check if your doctor has gotten the needed approval.

Your Preauthorization Checklist

Once your health plan coverage starts, you can begin using the resources below. Be a smart health care shopper – use these tools to stay informed about your plan benefits!

1

CONNECT WITH US

Use the information on your Blue Cross and Blue Shield of Illinois (BCBSIL) member ID card to create a Blue Access for MembersSM (BAMSM) account at bcbasil.com. And download the BCBSIL App at the Apple or Google Play store. Both tools can help you keep up with your benefits.

2

KNOW WHAT YOUR PLAN REQUIRES

Log in to BAM and click *My Coverage*. Under the **Referral and Prior Authorization Information** tab, you'll see a list of services that may require preauthorization. You can find a more detailed list of services that require approval under your plan in your benefit booklet. Confirm with your provider that they have gotten approval before your service.

3

TRACK YOUR STATUS

You can check whether your preauthorization has been submitted or approved online. In BAM, go to **My Coverage**, then **Referral and Prior Authorization Information**. Or in the BCBSIL App, click **More**, then **Prior Authorization**.

We want you to get the most out of your health care benefits – let us help!
Call the number on the back of your BCBSIL member ID card for questions.

Services That May Require Preauthorization

We want you to be clear about what your health plan covers.

Here is a list of services¹ that may need approval in advance:

- Inpatient hospital stays²
- Stays in a facility for rehabilitation, long-term care or skilled nursing care
- Behavioral health care, either in or outside of a hospital
- Some high-cost specialty drugs

Some services you get without a stay at the hospital may also require approval, such as:

- Air ambulance (for non-emergencies)
- CT scans, MRIs and other advanced imaging³
(Members may receive correspondence from AIM Specialty Health, a separate company that provides preauthorization services for BCBSIL.)
- Breast lift or reduction surgery
- Electrical stimulation of the brain, nerves or stomach
- Home health care
- Home infusion
- Hospice
- Some ear, nose or throat services, such as bone conduction hearing aids, cochlear implants or surgery
- Some sleep studies³
(Members may receive correspondence from AIM Specialty Health, a separate company that provides preauthorization services for BCBSIL.)
- Some surgeries of the face, jaw, mouth or teeth
- Some treatments for heart disease³
(Members may receive correspondence from AIM Specialty Health, a separate company that provides preauthorization services for BCBSIL.)
- Some wound care services, such as high-pressure oxygen treatment

You are responsible for calling BCBSIL if you get out-of-network care. Be sure to notify BCBSIL within two days of an emergency, maternity, mental health or substance abuse hospital admission at an out-of-network facility.

For preauthorization or other questions, call the number on the back of your member ID card.

¹ Preauthorization requirements vary by plan. Check your benefits booklet or call the Customer Service number on the back of your member ID card for questions about your benefits.

² In-network inpatient hospitals are required to request preauthorizations on your behalf.

³ AIM Specialty Health is a separate company that provides preauthorization services for BCBSIL. AIM Specialty Health does not provide BCBSIL products and services and is solely responsible for the products and services it provides. Members may receive correspondence from AIM Specialty Health.

Glossary of Employee Benefit Terms

Allowed Amount. Maximum amount on which payment is based for covered healthcare services. This may be called “eligible expense,” “payment allowance” or “negotiated rate.” If your provider charges more than the allowed amount, you may have to pay the difference. (See Balance Billing.)

Balance Billing. When a provider bills you for the difference between the provider’s charge and the allowed amount. For example, if the provider’s charge is \$100 and the allowed amount is \$70, the provider may bill you for the remaining \$30. A preferred provider should not balance bill you.

Beneficiary. The person(s) you name to receive certain benefits (such as life insurance) upon your death.

Brand Name Drug: Medications are marketed under a trademark-protected name and are often available from only one manufacturer.

Coinsurance. The percentage of covered medical or dental expenses that you must pay. For example, if your plan pays 80%, you must pay the remaining 20%.

Copayment. A fixed amount you pay for a covered healthcare service, usually at the time of service.

Deductible. The amount of medical or dental expenses you must pay each year before your plan begins paying benefits.

Deductible Carry-Over. In some benefit plans, not Health Savings Account Compatible Plans, if you have not met your annual deductible during the last three months of the plan year the claims incurred may apply toward the deductible for the next plan year.

Emergency Medical Condition. An illness, injury, symptom or condition so serious that a reasonable person would seek care right away to avoid severe harm.

Evidence of Insurability (EOI). An application process in which you provide information on the condition of your health or your dependent’s health in order to be considered for certain types of insurance coverage.

Explanation of Benefits (EOB). The document you receive from the insurance company after your claim is filed and processed. The EOB shows how much of the expense the plan covered and how much you may be expected to pay.

Formulary Brand Name Drug: A list of prescribed medications that are preferred by your plan because they are safe, effective alternatives to other generics or brands that may be more expensive. The formulary has a wide selection of generic and brand-name medications.

HIPAA (Health Insurance Portability and Accountability Act of 1996). A federal law that addresses the privacy of patient health information. The “privacy” regulations give patients greater access to their own medical records and more control over how their personal health information is used. Also, the law defines the obligations of health care providers and health plans to protect patient records.

Hospitalization. Care in a hospital that requires admission as an inpatient and usually requires an overnight stay.

Hospital Outpatient Care. Care in a hospital that doesn’t require an overnight stay.

In-Network Provider. The facilities, providers and suppliers your health insurer or plan has contracted with to provide healthcare services.

Maximum annual benefit. The maximum amount the plan pays for specific services (such as dental or chiropractic) for a covered individual, each plan year.

Medically necessary. Services and supplies that the insurance company determines to be consistent with generally accepted practices for the diagnosis of an illness or injury, or the medical care of a diagnosed illness or injury. Only medically necessary services and supplies are covered by the plan.

Out-of-Network Provider. The facilities, providers and suppliers who don't have a contract with your health insurer or plan to provide services to you. You'll pay more to see an out-of-network provider.

Out-of-Pocket Limit. Is the most you have to pay for covered medical expenses in a year. Once you've reached the out-of-pocket maximum, the plan pays 100% of eligible expenses for the remainder of the plan year. This limit never includes your premium, balance-billed charges or charges the plan doesn't cover.

Plan. A benefit your employer, or other group sponsor provides to you to pay for your healthcare services.

Plan year. The period of time in which plan coverage and records are based. For the District's plan, it is the calendar year. (For example, the annual deductible, annual out-of-pocket maximum, and maximum annual benefit all apply to expenses incurred during the plan year.)

Preauthorization. A decision by your health insurer or plan that a healthcare service, treatment plan, prescription drug or durable medical equipment is medically necessary. Sometimes called prior authorization, prior approval or precertification.

Premium. The amount you pay for your health care coverage and other benefits, through payroll deductions.

Primary Care Physician. A physician who provides both the first contact for a person with an undiagnosed health concern as well as continuing care of varied medical conditions, not limited by cause, organ system, or diagnosis. The following types of providers are PCPs: family practitioners, general practitioners, pediatricians, internal medicine, and gynecologists.

Specialist. A physician specialist focuses on a specific area of medicine or a group of patients to diagnose, manage, prevent or treat certain types of symptoms and conditions.

Urgent Care. Care for an illness, injury or condition serious enough that a reasonable person would seek care right away, but not so severe as to require emergency room care.

Voluntary benefits. Optional benefit plans sponsored by the employer, but fully paid for by employees who elect coverage. These benefits are generally available at special group rates or discounts, making them more cost-effective than employees could obtain on their own.

Waiver of Premium. Rider or provision included in the life insurance policy exempting the insured from paying premiums after insured has been disabled for a specified period of time.

Important Notices

Premium Assistance Under Medicaid and the Children's Health Insurance Program (CHIP)

If you or your children are eligible for Medicaid or CHIP and you're eligible for health coverage from your employer, your state may have a premium assistance program that can help pay for coverage, using funds from their Medicaid or CHIP programs. If you or your children aren't eligible for Medicaid or CHIP, you won't be eligible for these premium assistance programs but you may be able to buy individual insurance coverage through the Health Insurance Marketplace. For more information, visit www.healthcare.gov.

If you or your dependents are already enrolled in Medicaid or CHIP and you live in a state listed below, contact your State Medicaid or CHIP office to find out if premium assistance is available.

If you or your dependents are **not** currently enrolled in Medicaid or CHIP, and you think you or any of your dependents might be eligible for either of these programs, contact your State Medicaid or CHIP office or dial [877.KIDS.NOW](tel:877.KIDS.NOW) or www.insurekidsnow.gov to find out how to apply. If you qualify, ask your state if it has a program that might help you pay the premiums for an employer-sponsored plan.

If you or your dependents are eligible for premium assistance under Medicaid or CHIP, as well as eligible under your employer plan, your employer must allow you to enroll in your employer plan if you aren't already enrolled. This is called a "special enrollment" opportunity, and **you must request coverage within 60 days of being determined eligible for premium assistance**. If you have questions about enrolling in your employer plan, contact the Department of Labor at www.askebsa.dol.gov or call [866.444.EBSA \(3272\)](tel:866.444.EBSA).

If you live in one of the following states, you may be eligible for assistance paying your employer health plan premiums. The following list of states is current as of January 31, 2024. Contact your state for more information on eligibility.

Women's Health & Cancer Rights Act

If you have had or are going to have a mastectomy, you may be entitled to certain benefits under the Women's Health and Cancer Rights Act of 1998 (WHCRA). For individuals receiving mastectomy-related benefits, coverage will be provided in a manner determined in consultation with the attending physician and the patient, for:

- All stages of reconstruction of the breast on which the mastectomy was performed;
- Surgery and reconstruction of the other breast to produce a symmetrical appearance;
- Prostheses; and
- Treatment of physician complications of the mastectomy, including lymphedema.

These benefits will be provided subject to the same deductibles and coinsurance applicable to other medical and surgical benefits provided under the plan.

If you would like more information on WHCRA benefits, call Blue Cross Blue Shield of Illinois.

Newborns' and Mothers' Health Protection Act

Group health plans and health insurance issuers generally may not, under Federal law, restrict benefits for any hospital length of stay in connection with childbirth for the mother or newborn child to less than 48 hours following a vaginal delivery, or less than 96 hours following a cesarean section. However, Federal law generally does not prohibit the mother's or newborn's attending provider, after consulting with the mother, from discharging the mother or her newborn earlier than 48 hours (or 96 hours as applicable). In any case, plans and issuers may not, under Federal law, require that a provider obtain authorization from the plan or the insurance issuer for prescribing a length of stay not in excess of 48 hours (or 96 hours).

HIPAA Special Enrollment Rights

Initial Notice of Your HIPAA Special Enrollment Rights

Our records show that you are eligible to participate in the District's Health Plan (to actually participate, you must complete an enrollment form and pay part of the premium through payroll deduction).

A federal law called HIPAA requires that we notify you about an important provision in the plan—your right to enroll in the plan under its “special enrollment provision” if you acquire a new dependent, or if you decline coverage under this plan for yourself or an eligible dependent while other coverage is in effect and later lose that other coverage for certain qualifying reasons.

Loss of Other Coverage (Excluding Medicaid or a State Children's Health Insurance Program). If you decline enrollment for yourself or for an eligible dependent (including your spouse) while other health insurance or group health plan coverage is in effect, you may be able to enroll yourself and your dependents in this plan if you or your dependents lose eligibility for that other coverage (or if the employer stops contributing toward your or your dependents' other coverage). However, you must request enrollment within 30 days after your or your dependents' other coverage ends (or after the employer stops contributing toward the other coverage).

Loss of Coverage for Medicaid or a State Children's Health Insurance Program. If you decline enrollment for yourself or for an eligible dependent (including your spouse) while Medicaid coverage or coverage under a state children's health insurance program is in effect, you may be able to enroll yourself and your dependents in this plan if you or your dependents lose eligibility for that other coverage. However, you must request enrollment within 60 days after your or your dependents' coverage ends under Medicaid or a state children's health insurance program.

New Dependent by Marriage, Birth, Adoption, or Placement for Adoption. If you have a new dependent as a result of marriage, birth, adoption, or placement for adoption, you may be able to enroll yourself and your new dependents. However, you must request enrollment within 30 days after the marriage, birth, adoption, or placement for adoption.

Eligibility for Medicaid or a State Children's Health Insurance Program. If you or your dependents (including your spouse) become eligible for a state premium assistance subsidy from Medicaid or through a state children's health insurance program with respect to coverage under this plan, you may be able to enroll yourself and your dependents in this plan. However, you must request enrollment within 60 days after your or your dependents' determination of eligibility for such assistance.

To request special enrollment or to obtain more information about the plan's special enrollment provisions, contact your plan administrator.

Michelle's Law

Michelle's Law requires group health plans to provide continued coverage for certain dependents who are covered under the group health plan as a student if they lose their student status because they take a medically necessary leave of absence from school. This continuation of coverage is described below.

If your dependent is no longer a student, as defined in the plan, because he/she is on a medically necessary leave of absence, your dependent may continue to be covered under the plan for up to one year from the beginning of the leave of absence. This continued coverage applies if, immediately before the first day of the leave of absence, your dependent was (1) covered under the plan and (2) enrolled as a student at a post-secondary educational institution (includes colleges, universities, some trade schools and certain other post-secondary institutions).

For purposes of this continued coverage, a "medically necessary leave of absence" means a leave of absence from a post-secondary educational institution, or any change in enrollment of the dependent at the institution, that:

- begins while the dependent is suffering from a serious illness or injury,
- is medically necessary, and
- causes the dependent to lose student status for purposes of coverage under the plan.

The coverage provided to dependents during any period of continued coverage:

- is available for up to one year after the first day of the medically necessary leave of absence, but ends earlier if coverage under the plan would otherwise terminate, and
- stays the same as if your dependent had continued to be a covered student and had not taken a medically necessary leave of absence.

If the coverage provided by the plan is changed under the plan during this one-year period, the plan will provide the changed coverage for the dependent for the remainder of the medically necessary leave of absence unless, as a result of the change, the plan no longer provides coverage for these dependents.

If you believe your dependent is eligible for this continued coverage, the dependent's treating physician must provide a written certification to the plan stating that your dependent is suffering from a serious illness or injury and that the leave of absence (or other change in enrollment) is medically necessary.

Coordination with COBRA Continuation Coverage

If your dependent is eligible for Michelle's Law's continued coverage and loses coverage under the plan at the end of the continued coverage period, continuation coverage under COBRA may be available at the end of Michelle's Law's coverage period and a COBRA notice will be provided at that time.

Questions?

If you have any questions regarding the information in this notice or your dependent's right to Michelle's Law's continued coverage, or if you would like a copy of your Summary Plan Description (which contains important information about plan benefits, eligibility, exclusions, and limitations), you should contact your Benefits Administrator at **847.949.2700, ext 2011**.

Health Insurance Marketplace Coverage Options and Your Health Coverage

Form Approved
OMB No. 1210-0149
(expires 12-31-2026)

PART A: General Information

Even if you are offered health coverage through your employment, you may have other coverage options through the Health Insurance Marketplace ("Marketplace"). To assist you as you evaluate options for you and your family, this notice provides some basic information about the Health Insurance Marketplace and health coverage offered through your employment.

What is the Health Insurance Marketplace?

The Marketplace is designed to help you find health insurance that meets your needs and fits your budget. The Marketplace offers "one-stop shopping" to find and compare private health insurance options in your geographic area.

Can I Save Money on my Health Insurance Premiums in the Marketplace?

You may qualify to save money and lower your monthly premium and other out-of-pocket costs, but only if your employer does not offer coverage, or offers coverage that is not considered affordable for you and doesn't meet certain minimum value standards (discussed below). The savings that you're eligible for depends on your household income. You may also be eligible for a tax credit that lowers your costs.

Does Employment-Based Health Coverage Affect Eligibility for Premium Savings through the Marketplace?

Yes. If you have an offer of health coverage from your employer that is considered affordable for you and meets certain minimum value standards, you will not be eligible for a tax credit, or advance payment of the tax credit, for your Marketplace coverage and may wish to enroll in your employment-based health plan. However, you may be eligible for a tax credit, and advance payments of the credit that lowers your monthly premium, or a reduction in certain cost-sharing, if your employer does not offer coverage to you at all or does not offer coverage that is considered affordable for you or meet minimum value standards. If your share of the premium cost of all plans offered to you through your employment is more than 9.12%¹ of your annual household income, or if the coverage through your employment does not meet the "minimum value" standard set by the Affordable Care Act, you may be eligible for a tax credit, and advance payment of the credit, if you do not enroll in the employment-based health coverage. For family members of the employee, coverage is considered affordable if the employee's cost of premiums for the lowest-cost plan that would cover all family members does not exceed 9.12% of the employee's household income.^{1,2}

Note: If you purchase a health plan through the Marketplace instead of accepting health coverage offered through your employment, then you may lose access to whatever the employer contributes to the employment-based coverage. Also, this employer contribution -as well as your employee contribution to employment-based coverage- is generally excluded from income for federal and state income tax purposes. Your payments for coverage through the Marketplace are made on an after-tax basis. In addition, note that if the health coverage offered through your employment does not meet the affordability or minimum value standards, but you accept that coverage anyway, you will not be eligible for a tax credit. You should consider all of these factors in determining whether to purchase a health plan through the Marketplace.

¹ Indexed annually; see <https://www.irs.gov/pub/irs-drop/rp-22-34.pdf> for 2023.

² An employer-sponsored or other employment-based health plan meets the "minimum value standard" if the plan's share of the total allowed benefit costs covered by the plan is no less than 60 percent of such costs. For purposes of eligibility for the premium tax credit, to meet the "minimum value standard," the health plan must also provide substantial coverage of both inpatient hospital services and physician services.

When Can I Enroll in Health Insurance Coverage through the Marketplace?

You can enroll in a Marketplace health insurance plan during the annual Marketplace Open Enrollment Period. Open Enrollment varies by state but generally starts November 1 and continues through at least December 15.

Outside the annual Open Enrollment Period, you can sign up for health insurance if you qualify for a Special Enrollment Period. In general, you qualify for a Special Enrollment Period if you've had certain qualifying life events, such as getting married, having a baby, adopting a child, or losing eligibility for other health coverage. Depending on your Special Enrollment Period type, you may have 60 days before or 60 days following the qualifying life event to enroll in a Marketplace plan.

There is also a Marketplace Special Enrollment Period for individuals and their families who lose eligibility for Medicaid or Children's Health Insurance Program (CHIP) coverage on or after March 31, 2023, through July 31, 2024. Since the onset of the nationwide COVID-19 public health emergency, state Medicaid and CHIP agencies generally have not terminated the enrollment of any Medicaid or CHIP beneficiary who was enrolled on or after March 18, 2020, through March 31, 2023. As state Medicaid and CHIP agencies resume regular eligibility and enrollment practices, many individuals may no longer be eligible for Medicaid or CHIP coverage starting as early as March 31, 2023. The U.S. Department of Health and Human Services is offering a temporary Marketplace Special Enrollment period to allow these individuals to enroll in Marketplace coverage.

Marketplace-eligible individuals who live in states served by HealthCare.gov and either- submit a new application or update an existing application on HealthCare.gov between March 31, 2023 and July 31, 2024, and attest to a termination date of Medicaid or CHIP coverage within the same time period, are eligible for a 60-day Special Enrollment Period. **That means that if you lose Medicaid or CHIP coverage between March 31, 2023, and July 31, 2024, you may be able to enroll in Marketplace coverage within 60 days of when you lost Medicaid or CHIP coverage.** In addition, if you or your family members are enrolled in Medicaid or CHIP coverage, it is important to make sure that your contact information is up to date to make sure you get any information about changes to your eligibility. To learn more, visit [HealthCare.gov](https://www.healthcare.gov) or call the Marketplace Call Center at 1-800-318-2596. TTY users can call 1-855-889-4325.

What about Alternatives to Marketplace Health Insurance Coverage?

If you or your family are eligible for coverage in an employment-based health plan (such as an employer-sponsored health plan), you or your family may also be eligible for a Special Enrollment Period to enroll in that health plan in certain circumstances, including if you or your dependents were enrolled in Medicaid or CHIP coverage and lost that coverage. Generally, you have 60 days after the loss of Medicaid or CHIP coverage to enroll in an employment-based health plan, but if you and your family lost eligibility for Medicaid or CHIP coverage between March 31, 2023 and July 10, 2023, you can request this special enrollment in the employment-based health plan through September 8, 2023. Confirm the deadline with your employer or your employment-based health plan.

Alternatively, you can enroll in Medicaid or CHIP coverage at any time by filling out an application through the Marketplace or applying directly through your state Medicaid agency. Visit <https://www.healthcare.gov/medicaid-chip/getting-medicaid-chip/> for more details.
